

To the House of Commons. The petition of the residents of the United Kingdom of Great Britain and Northern Ireland declares that the British hedgehog population has declined by up to a third over the last 10 years. The petitioners therefore urge the House of Commons to endorse the practical supporting measures of 'Hedgehog Street' and ensure the hedgehog is given better legal protection including adding it to Schedule 5 of the Wildlife and Countryside Act by the Government and in particular the Department for Environment, Food and Rural Affairs. And the petitioners remain, etc.
